We encourage you to publish open access if you can — it makes your research more widely available. However, you will need to have the funds to pay the article processing charge (APC).

We suggest that you explore your funding options — It makes your decision easier. How to get information:

- Check our [list of funders](#) first, as your APC funding may be covered
- Consult our [funding support service](#)
- Contact the librarian at your institution

We know that this is not a quick decision — If you want to look for help to pay this before making a choice, you can return to this page when you're ready.

Please select your publication model:

Publish open access - everyone can read your article for free online
The APC for this article is £3780.09 / \$4080.50 / €4120.89. The final amount will depend on any local taxes or admin fees.

Publish subscription - readers will need a subscription to access your article
Check the conditions of your funding before choosing subscription. Some funders require immediate open access (read about [open access policy requirements](#)).

If you select the subscription publishing route, you accept the journal's standard licensing terms - including embargo and [self-archiving policies](#). These terms replace any others that anyone may declare to apply to any version of the manuscript.
